1. **Tiebarless (Patent) clamping system:**

Facilitates Easy Fitment
Automated Operations

2. **Tiebarless Structure/ Modular Framed:**
Facilitates Easy Accessibility to all parts

3. **Aesthetics:**
Industrial Cladding
All Side Covered Machine

4. **Servo System:**
Total Hyd. System Saving: Approx. 40%
Excellent Control on Machine Movements
Higher Life Cycle

5. **Parison Control System:**
200pt Beckhoff System
Reduction in weight by 10%
Reduction in overall gross weight by 15%
Total Wastage less than 25%
Beckhoff's Proven Technology Worldwide

- 6. **Elecon Gearbox - ISO Grade Cylinder**
- 7. **Total Machine Fabrication by Stainless Steel - SS 316L**
- 8. **Output Approx : 850,000/ day - Industry's benchmark with lower production cost**
- 9. **Special Barrel Heaters: Saving 40% on Electrical Consumption**
- 10. **Total Electrical Advantage over other machines in the market: 40%**
- 11. **Buffer Tank provided with the machine**
- 12. **Vacuum Pump provided with the machine**
- 13. **Stainless Steel Gripper with Automatic RM Loader provided with the machine**

14. **Filtration System:**

15. **SIP/ CIP System:**

16. **Moulds:**
Single Decker
Double Decker
